BRIEFING FOR CHECKLIST - RANDALL SCHOOL

Using Checklist:

1. Use hash marks every time you see violation or unsafe behavior, in appropriate place on checklist. Some occasions where more than one item is checked.
2. For two observers standing next to each other, let the other observer know those items you are checking (so no double counting).

Further Explanations:

1. Too fast for driving conditions: going speed limit, but too fast for conditions.
 - Weather related, e.g. ice or rain
 - Cars parked on both sides and kids present - driving 20 is too fast
 - Coming up to area with kids
 - School bus stop, not at school zone
2. Crosswalk exists at intersection, whether marked or unmarked
3. Pedestrian failing to yield to vehicle: parent gets out of car and attempts to cross with child mid block - expects oncoming vehicle to stop

Location of Observers and Main Things to Look For:

1. Roby and Chadbourne intersection - SE corner (2 people)

- A. Looking left down Roby, intersection and stop sign on SW corner**
